EDUCATION

University of Manitoba

B.Sc Computer Science(Hons), Minor in Mathematics

- **GPA:** 4.33/ 4.5

Sep. 2023 – Present

Winnipeg, Manitoba

WORK EXPERIENCE

Course Instructor(Part-time)

UCMAS(Universal Concept Mental Arithmetic System)

- **Deliver** certified abacus and mental-math training to 5–13 year olds as part of a global program spanning 80 countries and 6,000+ centres, guiding students from physical bead manipulation to rapid mental calculation.

July 2025 – Present

Winnipeg, Manitoba

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL, Java, Bash, HTML/CSS, GDScript, R

Tools and Technologies: Git, Flask, PostgreSQL, React, Node.js, BeautifulSoup, Postman

PROJECTS

CyberSentinel: Dual-Component Security Tool

Python, Flask, Node.js, Express, JavaScript

June, 2025

Winnipeg, MB

- **Built** and deployed a Chrome extension and companion web dashboard powered by a Python/Flask backend (VirusTotal API) to automatically scan email and web links, delivering near real-time Safe/Risky risk metrics while preserving user privacy.
- **rafted** an intuitive, responsive UI as a team of two with clear iconography, detailed hover-over threat intelligence, SSL certificate checks, and streamlined workflows to boost user confidence and streamline link-scanning across platforms.

Discord Verification Bot: BookClub UManitoba

Python, Railway, Discord

April, 2025

Winnipeg, MB

- **Developed** and deployed a Discord bot using discord.py on Railway to automate member verification and block spam bots on the University of Manitoba Book Club server.
- **Implemented** secure, API-driven role assignment and real-time validation workflows, ensuring only genuine users gain access and enhancing overall community safety.

HackAJudge: Hackathon Project

Flask, Python, HTML/CSS, Bootstrap, JavaScript, Git

Mar, 2025

Winnipeg, MB

- **Developed** a web-based judging platform in a team of three first-time hackathon participants within 24 hours.
- **Implemented** features for judges to grade projects and update a live leaderboard dynamically.
- **Introduced** teammates to Git, facilitating collaboration and version control throughout development.

Cooked: Game Jam Project

Godot, GDScript, Blender, Git

Nov, 2024

Winnipeg, MB

- **Collaborated** with a team of five first-time developers to design and develop a game within 48 hours during a game jam.
- **Won** the People's Choice Award, highlighting strong audience engagement and positive reception.
- **Gained** hands-on experience with Git and version control, game engines, and agile development practices.
- **Developed** teamwork and problem-solving skills in a high-pressure, time constrained environment.

VOLUNTEER EXPERIENCE

Member — University of Manitoba Robotics Club

2025 – Present

- **Contributing** to the Embedded Systems team by assisting in the design and testing of microcontroller-based components for autonomous robots.
- **Participating** in technical discussions and team meetings to understand system integration between hardware and software modules.

Member — University of Manitoba Space Applications and Technology Society (UMSATS) *2025 – Present*

- **Working** as part of the Software and Command Data Handling (CDH) teams to support satellite subsystem development and mission simulation tasks.
- **Learning** about spacecraft communication protocols, data handling pipelines, and team workflows to prepare for upcoming project contributions.

Tech committee — University of Manitoba Computer Science Students' Association *2024 – Present*

- **Collaborated** with the Director of Technology and tech team to implement updates and maintain the CSSA website and event-management software.
- **Participated** in meetings to review project progress, plan upcoming events, and align technical requirements with organizational goals.

Volunteer — Apar Foundation

Jan, 2022 – July, 2023

- **Followed** directions from supervisors and collaborated with other charity organisations and teams to get tasks done on time; administered polio vaccines to over 300 children in remote areas.
- **Assisted** staff with operations and kept track of the quantities of products being distributed in support of rural schools, benefiting over 450 children with nutrition, exercise books, bags, shoes, and toothpaste.
- **Served** hundreds of people during rural health camps and assisted different teams in the construction of borewells in multiple remote villages across Uganda

AWARDS

- **Bootcamp Project Winner** Innovative and Useful CyberSecurity Tool
- **GameJam Winner:** People's Choice
- **Academic Scholarship** for Academic Excellence
